CANADIAN WHEAT

WANTED BY OLD MEXICO

Wheat and Corn Crops Short and the Import Duty on Canadian Wheat may be Abolished

Mexico City, Oct. 23.—The shortness of the wheat and corn crop is alarming and the entire removal of the import duty on Canadian Wheat is expected shortly. The price of corn has risen 50 per cent.

CLOVER BAR NEWS

Road Improvement—Important Meeting of Society of Equity

Clover Bar, Oct. 23.—Threshing in this settlement is almost completed and a very fair estimate of the yield can now be made. The quality of oats and barley is the best in years, and the yield of all crops is about 25 per cent greater than the average. However, it appears from the reports of those who have offered wheat for sale that there is a considerable amount of smut, and the actual amount of millable wheat may not be much greater than last year. We are pleased to learn from Mr. Mason, our local butter maker, that the supply of cream for the creamery continues good and the indications are that the factory will continue in operation for some time.

Our school board took advantage of the privilege offered them by the Government to purchase four acres of the Clover Bar school section for a recreation and picnic ground. Premier Rutherford has again demonstrated the fact that he is true to the interests of his constituency by securing an appropriation for the improvement of the grade through the Neal slough. The work has just been completed and is a credit to every one connected with it. It should be a cause of much satisfaction to Premier Rutherford when he reflects that when he entered upon the duties of his office, less than half the distance between Horton's store and Edmonton could be travelled on the road allowance. With the completion of this work the last obstruction has been removed and the whole distance of fourteen miles can now be travelled in a straight line. The earth for this work was moved a distance of from 150 to 425 yards at a cost of 20c. per cubic yard.

The A. S. of E. held its regular meeting at the school house on the 19th inst. Several matters of importance came up for discussion. Reference was made to a letter which appeared in the Edmonton Journal signed "An Edmonton Miller" which stated that large quantities of flour were being imported from the outside. It would be necessary to buy wheat this year on an export basis in order to be able to sell the local flour sufficiently cheap to shut out the outside product. The sentiment was unanimous that the desire to preserve Edmonton for the farms and mills of the Edmonton district was a laudable one and should be supported by every believer in equity principles, and it was agreed that the members of this lodge would be willing to sell their wheat during the year at Winnipeg prices, less the freight. If the millers would sell their flour and bran and shorts at Winnipeg prices less the freight.

Another matter of importance which came up for discussion was the proposed amalgamation of the various farmers' organizations of the Province into one association. The sentiment of the meeting was unanimously in favor of such a union and Mr. Keith, the representative on the executive board, was instructed to use his influence to that end. A majority of those present were of the opinion that the new organization should be known as "The Alberta Farmers' Association." The chairman announced that a resolution had been passed by the Grain Growers' Association consenting to the proposed union. Mr. Keith was further instructed to propose at the next meeting of the executive board that a committee be appointed to act in harmony with a similar committee of the Grain Growers to appear before the tariff commission which is soon to visit Edmonton and to present the views of the farmer on that subject.

TRAFALGAR DAY

WAS LOYALLY CELEBRATED

London is Deeply Stirred by the Nelson Centenary—Celebrations Throughout the Dominion

Ottawa, October, 23.—Trafalgar day was celebrated with great eclat in Montreal and Ottawa. British Columbia towns are especially patriotic. Earl Grey delivered a great speech at Ottawa.

SPEECHES IN WINNIPEG.
Winnipeg, Man., Oct. 23.—Beyond a small audience which gathered Saturday evening in the Y. M. C. A. auditorium under the S. O. E. auspices, the Nelson Centenary went practically unnoticed in the prairie city, there being no decorations of any kind to mark the unique event in the empire's history. Two notable addresses were however made by W. Sanford Evans and Prof. Bland at the S. O. E. concert, both speakers taking the line that the self-respect of Canada made it necessary for her to take early steps towards the establishment of a separate navy, but which would cooperate whenever needed with the Imperial authorities in war time.

LONDON DEEPLY STIRRED
London, Oct. 23.—Not for many years have the people of the Empire's metropolis been so deeply stirred as during yesterday's solemn yet joyous celebration of the great dead, Trafalgar Square, where Nelson's monument stands was all day the Mecca of devout imperialists from every quarter of the Empire he did so much to create, and at night was black with an immense throng who gathered to do homage to the heroic figure lifted high above them and thrown in dazzling prominence by powerful search lights. Throughout the kingdom the same spirit has been manifested and from every corner of the Empire loyal messages have come in.

FROM LESSER SLAVE LAKE

A large party arrived in the city on Saturday from the north, including C. D. A. Barber, Captain McLeod of the steamer "Peace River," Capt. Gullion of the "Graham," Supt. Constantine who has been in charge of the R. N. W. M. P. party cutting out the Klondike trail and T. Kelly and Insp. Burban of the H. B. Co's service.

Mr. Barber has been at Lesser Slave Lake during the summer building a steamer for the R. C. missions. The boat is a sidewheeler, 60 feet long and will ply on Lake Athabasca. The crops about the Lake are splendid. The season has been ideal, the early rainfall being succeeded by dry and beautiful weather. In the mission gardens at the Lake a cabbage was grown weighing 54 lbs, while three bags of potatoes sown yielded 75 bags and 14 bushels of seed wheat returned a crop of 305 bushels of excellent grain.

CAMPAIGNING IN THE NORTH

Shaftesbury Settlement, Peace River, Oct. 2, 1905.
The editor of the Bulletin.
In connection with Mr. T. A. Bricks candidature of Peace River electoral division, a meeting was held in the Shaftesbury Settlement on the 4th of September composed of the half-breed population and white settlers. It was unanimously agreed that from the length of Mr. Bricks' experience in the district, he knew more of the requirements of Peace River than any one who was likely to come forward as candidate.
The meeting was very enthusiastic, there being not one dissentient voice. Mr. Bricks is making a canvass of the district as opportunity offers.

NAMES OMITTED

In a list of Liberal candidates published in Saturday's Bulletin the following names were omitted: W. Garciy, St. Albert; R. Hardisty, Athabasca and L. Babue, Peace River.

THE DAILY LIST

ACCIDENTS AND FATALITIES

Twenty-One Lives Lost on the Great Lakes—Collisions, Drownings and a "Cave-In"

TWENTY-ONE LIVES LOST
Cleveland, Oct. 23.—Twenty-two ships and twenty-one lives is the record of total loss so far of the big storm on the lakes.

KILLED BY CAVE-IN
Salt Lake City, Utah, Oct. 23.—Five men were killed by a cave-in at the copper mines.

THIRTY INJURED
Port Hope, Kansas, Oct. 23.—A west bound Missouri Pacific passenger train was wrecked here yesterday. Thirty persons were injured, but no one killed.

FIVE DROWNED
Philadelphia, Oct. 22.—A steam launch ran down a barge here. Five persons in the latter were drowned. The accident was caused by the launch trying to cross the barge's tow line.

ENGINE SMASHED

Strathcona Electric Light Plant in Trouble—Items of General Interest

Strathcona, Oct. 23.—Last evening about 10 p.m. the big engine at the light station made its last revolution and broke in pieces. Chief Powers was in the engine room at 8 p.m. making his usual round before retiring for the night and found everything satisfactory. Two hours later he received a phone message that there was a "smash-up" at the power house. On reaching there he found total darkness and the big engine lying broken in pieces.

Night Engineer Mortimer reports that all went well until about 10 p.m. when, without any warning, he found himself pitched into the coal bin, having his hands scalded and now knowing how he got there. At the same time there was a loud report followed by total darkness. The wrecked engine was made at Brantford, Ont., and has been running about eleven months. A flaw in the crossheads is supposed to have caused the wreck.

Mr. Jackson of Viking, is in town. He reports good crops in his neighborhood and threshing about half done. He says much additional land will be under crop next year.

Mr. Puccett of Del Norte is in town. He came in to meet his wife who has been visiting friends in Washington and Oregon for the last four months. She returned on Saturday.

Mr. Fletcher of the Chronicle staff has returned from a tour of the country past Morinville where he has secured a homestead. He speaks favorably of the country and proposes making his home near Independence, P.O.

Mr. Wilson, late of Brantford, Ont., is at the Windsor. He is a painter and paperhanger, and is looking up a suitable place to locate either in Strathcona or Edmonton.

Mr. McNish, from Port Hope, Ont., who has been assisting to bridge the Peace River, is in town. He is of the opinion that the bridge will be ready for the rails, when the "steel gang" reaches there. He proposes working in Walter's Camp during the winter and to take up land in the spring in the Peace River region.

Three threshing crews, those of Messrs. Stewart, Rupert and Cropley, are at work about four miles from town on the old Calgary trail. The yield of wheat is good, but oats are making an exceptionally good showing.

A gang of men were engaged Saturday laying a modern sidewalk along Duggan street south from Whyte avenue.

Morrow says

"Never let anyone 'rab it in' unless it's MORROW'S Electric Liniment, the soreness and stiffness extractor, quick pain relief and rheumatic ease."

EXPERIMENTAL FARMS

Minister of Agriculture Announces
that three will be Established in
Alberta

Innisfail, Oct. 14.—While passing through here Hon. Sydney Fisher, minister of agriculture, was interviewed and made the following statement:

"In regard to this district your creamery there would be a credit to the most progressive part of Eastern Canada, viewed either from the amount of your output or from the viewpoint of your grounds, building and plant. All you need now to insure the permanent progress of your farmers is a good pork factory with a good up-to-date manager who understands his business as well as your creamery manager. You certainly should go in for pork raising. We find it the best paying part of our farming operations in the east. Our exports have increased from about \$500,000 worth in 1895 to nearly \$6,000,000 worth last year, and our packers are not able to get enough hogs to supply the demands of the home and British markets. I have been getting right at my door 6-12 to 7 cents per lb. live weight for hogs all summer. By all means take up the pork business. I know of no better place in Canada for the business than right here in the centre of the dairy interest of Alberta, with your by-product of skim milk and cheap coarse grains. In feeding skim milk don't feed too much. If you have 100 lbs. of skim milk, better feed it to 20 or even 30 pigs than to 10. I have proved this from experience.

"I have no hesitation in telling you what I have told Mr. Talbot. I have decided to have three smaller farms instead of one large farm for Alberta. One will be established in the south, one in the north and one near the centre. The central one will be chiefly engaged in solving dairy problems, and I recognize that Innisfail is the centre of the dairy business of Alberta. I will go on as far as Lacombe and look over things there, then I shall return to Ottawa and go over the matter with Prof. Saunders before deciding definitely.

WARWICK NEWS

Warwick, Oct. 18.—On the 16th inst., A. C. Walker of the International Harvester Co. and Mr. Dobbin of Calgary, visited Warwick, also Mr. and Mrs. Potter, of Edmonton.

L. Whitney left here with a load of potatoes for his place in Strathcona on the 16th inst.

Last Monday a fierce storm of wind and snow from the north swept through this valley.

The Smith and Horman threshing outfit are now threshing in the German Settlement some four miles south of Warwick. There is a good sample of grain and a good yield.

Rev. T. C. Buchanan of Calgary and Rev. A. B. Argue of Vegreville visited Warwick, soliciting aid to build a Methodist church at the new town site of Vegreville. They are meeting with good success.

On the 14th inst., E. Richardson visited St. Paul's Crossing and went on to the Snake Lake Indian Agency. Mrs. J. H. Lyons, Jasper avenue will not receive on Wednesday.

CALGARY REAL ESTATE

Prospects of Manufacturing Establishments Raises Value of Property

Albertan: Evidence of the nearest approach to a boom which has taken place in the city since that of 1890, when the C. & E. line was started, has been shown this week. The cause is attributed to the advent of, and then the final decision of the Alberta Portland Cement Company to locate in Calgary. Real estate brokers, however, are of the opinion that the great activity which took place this week, has been simmering for some time.

So far as it is possible to estimate, two hundred and fifty lots changed hands during this week, mostly through brokers, but some by private sale. Fully a third of this number are accounted for by sales in the district across the Elbow River. Mr. Hatfield, who owns considerable property in that part of the city, withdrew what he had listed with agents from the market altogether. By yesterday the real estate men in the city had not a lot as originally listed on their books.

Activity was also shown in the western part of the city where over a hundred lots changed hands. The cause of this activity is considered partly due to the purchase by the cement company of eighty-six acres to the south of the main line and east of the Macleod branch, from Major Walker, Wm. Pearce and Mr. Beattie, for a sum in the neighborhood of 17,000.

The recent announcement of J. Y. Griffin & Co., of Winnipeg, to the effect that they had decided to put in a packing plant at an expenditure of \$100,000; a rumor also, that a large concern employing about twice the number of men to that of the cement company would locate in that section, also helped to arouse enthusiasm.

SHERIFF'S SALE

Northwest Territories, to wit: By virtue of a Writ of Execution issued out of the Supreme Court of the Northwest Territories, Northern Alberta Judicial District, at the suit of The Imperial Bank of Canada Plaintiff, and Charlotte Twyford and Hugh A. W. Twyford, Defendants, and to me directed against the Lands of Charlotte Twyford and Hugh A. W. Twyford, I have seized and taken in Execution the following Lands, namely:

Lots 70 and 71, Block 3, H. B. reserve, Edmonton, subject to mortgage; the south west quarter and the fractional part of the Northwest Quarter lying south of the Saskatchewan River, all of Section six (6) in Township Fifty-three (53) in Range twenty-three (23) west of the 4th Meridian, subject to a mortgage to James Powell for the sum of \$5,300. Which I shall expose for sale on Tuesday, the 19th day of December at the Sheriff's Office, Edmonton, at the hour of 2 p.m.

W. ROBERTSON, Deputy Sheriff.

REVILLON BROTHERS, LIMITED.

HEATING PLANT

An Ontario Town Will Lead the Way
With a Public Heating System

(Toronto Star)

Other cities may have led the way in the introducing of public conveniences such as gas, electric light and waterworks plants, but Chatham has the honor of being the first place in Canada to install a public heating plant. The Wallaceburg, Chatham, and Lake Erie Electric Railway Company is behind the project, which it is expected will be completed according to present plans before the really cold weather sets in. Nearly every business block and public building in the city has agreed to make the experiment for this winter, and if it proves as successful as the railway people say it will, then it is intended to extend the system throughout the whole place.

The exhaust steam from the power house is to be used for this purpose and it is claimed that there will be enough of this without the manufacture of live steam to supply all the heating at present contracted for. To the outsider this may sound like a fairy tale, but the people of Chatham do not look upon it as such, and are almost wishing for winter to set in that they may have the luxury of having their buildings heated without the trouble of shoveling the coal into the furnace and carrying the ashes away afterwards. And then there will be no more coal bills to pay. Steam bills will take their place of course, but that will be overlooked in the joy of having at last discovered a way of escaping those terrible little billets doux from the coal man.

The method by which the steam will be conveyed about the town is reminiscent of the story told by Bunyan in the "Houseboat on the Styx" of the way in which the associated shades in Hades were provided with their tobacco smoke. The tobacco was burned in one of the many furnaces of the lower regions, and the smoke conducted off by pipes into a huge reservoir. From this rubber tubes, to which were attached meters, registering the amount of smoke consumed, ran out to the smokers who used what smoke they required, paying for it by measure. In this way all waste was avoided, and there was no cigar butts to throw away. There will similarly be no waste in the Chatham heating system. The steam will run from the big engines of the Street Railway Company into the pipes which are now being laid through the main streets of the town, and from these it will be tapped off into the buildings along the way.

The pipe through which the steam passes is an iron one. It is wrapped in asbestos, and this is again enclosed in a tin tube. Outside the tin tube there is an air cushion, and outside of that again a wooden covering, which is bound with wire, and the whole is treated with creosote and other materials. In this way a durable and cold-proof tube is secured, at short intervals there are very expensive condensing valves, which make up in themselves the bulk of the cost of laying the pipes, which amounts to \$8 per foot. The pipes are laid in a rather peculiar manner, the depth varying from four to six feet in order to allow a sufficient space for drainage, for there is sure to be a little water condensed in the tubes. This runs off into the sewers.

There are altogether at present some 3,600 feet being laid, which, at the price mentioned above, brings the amount of the investment up to \$28,800. Next year pipes will be laid throughout the town wherever there promises to be enough business to make the outlay pay.

The manager of the company when seen by the Star at Chatham one day this week said that the rates which would be charged would not lower the heating expenses of the users to any appreciable extent. They would, however, be saved the trouble of paying men to look after their furnaces or of doing it themselves. It is expected, however, that there will also be a considerable reduction in insurance rates, because of the absence of fires in the buildings. The rates will be made up in two ways. There will be a charge based on the number of cubic feet in the building to be heated, which will vary from \$8 to \$5 per hundred feet, according as there are one or more sides exposed to the weather. On the meter system the charge will be made at the rate of 25 cents per thousand pounds of water condensed. He claims that there will be no loss in heat at all, and that the steam will be just as hot a mile away from the boilers as where it enters the pipes.

It is not a new experiment, but has been successfully carried out in Toronto, Lockport and other American cities. The manager of the concern here expects to see the idea taken up by several other Canadian cities as soon as Chatham has successfully demonstrated that it is practical. He is of the opinion that it could be carried out in Toronto.

The railway, when completed, will be one of the best suburban roads in Ontario. There will be altogether from sixteen to twenty cars in operation, which will run over forty miles of track from Wallaceburg to Erie Beach on Lake Erie. In the power house there will be three 450 horse power motors, and six Babcock and Wilcox boilers of like capacity.

POLITICAL

The Strathcona Chronicle says: "Considering there is a large area in the surrounding districts of Strathcona and Edmonton upon which the Government ditcher could be employed with much benefit to property owners, it would be interesting to learn why the one employed for that purpose during the spring and part of the summer in this vicinity has been taken to Lacombe where one other is employed. From the fact that both Government ditchers are at work at Lacombe one would be inclined to believe that the Federal representative of the Strathcona constituency lived somewhere in the neighborhood of that town. The Chronicle should communicate with Mr. Haultain on the matter, the machines in question having been constructed and operated by the North West Government."

QUESTIONABLE METHODS. (Medicine Hat News)

Western newspapers are going a long way afield in order to find means of faulting the members of the new Alberta Government. We are very close students of the Alberta press and we have failed to find much that reflects upon the honesty, character or ability of the men who have been placed in responsible cabinet positions appearing in our own papers. Yet far afield we find The Toronto News imputing base motives to the men who are in Western public affairs, and these reflective articles are quoted as suits the circumstances by Alberta papers that have not the cause nor the inclination to father such articles themselves. This may be politics, but it is not a class of politics that is creditable to any section of Alberta, and is so small that it does not appeal to the good sense of the electors.

The Toronto news made a statement recently regarding the Minister of Agriculture to the effect that his entrance into the cabinet was purchased at the price of his favoring Edmonton as the capital. This reflection from the East was quoted in the West, although no Western papers so far as we know, had the temerity to father such a ridiculous statement. The same thing was said of Dr. DeVoe, of Lethbridge, Minister without portfolio. More recently the Minister of Agriculture, charged in the Toronto News with taking a position on the school question such as no Western paper has accused him of taking. This, too, is quoted. We don't know what the Minister's views are on these questions, but would not fault him if he favored Edmonton for the capital, and would not expect that on the school question he would take other than a reasonable and straightforward attitude, and that he will, when the proper time comes, put himself before the electors publicly on these matters. Until this time, the electors will no doubt place but small importance on these imported ideas. If there is anything in them they would be made to do duty first-hand. There is an old adage about "green fields far away," but it looks as if the Toronto News thought there were "green people far away." The people of Alberta are about as intelligent as the people in any province in Canada, and can be trusted to give a proper verdict at the polls, without the dragging in of petty political methods of down-easters. We think that all the energies of Westerners will be devoted to building up their country and co-operating with eastern provinces in Canadian development rather than in becoming parties to matters and methods which are extremely petty and too narrow for Westerners.

IN A FEW WEEKS... FORT SASKATCHEWAN

Will have direct connection with Winnipeg per Canadian Northern Railway. Now is the time to invest on the ground floor.

SOME MEN ARE RICH

In Edmonton today because they had foresight enough two or three years ago to buy property which, as the city grew, advanced rapidly in value. Some of them were laughed at—people called them fools—but two short years have abundantly proved the correctness of their judgment as regarding the reward of their faith in the city.

The growth of the city during the past two or three years it will be but as the dawn of day compared with the noon-day sun.

You have the opportunity now to do as some few did in the past.

The Groat Estate

is now on the market at prices which will look small—very small, indeed—in the very near future. The city is growing westward rapidly and one long this estate will be the choice residential part. No part of this estate is more than two miles from the very centre of Edmonton today—in five years it will be in the very heart of the city.

There are 500 lots—50 x 150 ft.—to be sold on easy terms—one-third cash, and the balance in six and twelve months, without interest. There will be no taxes to pay for over a year.

History Repeats Itself

You can buy from two to ten lots for the same money which it will take to purchase one in the present settled part of the city. Those who sow a few dollars now will reap a rich harvest in the not-far-distant future. Don't miss the chance now—TODAY—and have to say in a year: "What a fool I was that I didn't purchase a year ago." Somebody is going to make money on this estate—why not have a share of it?

LOCAL

—Frogs: Mild with showers.
—City Council meets in special session Tuesday evening.

—The annual meeting of the hockey club will be held in the Imperial hotel at 8 o'clock this evening.

—The young men's institute in connection with Grace church will be formally opened tonight. Everyone is invited.

—A football game will be played at 11 a.m. on Thanksgiving Day on the H. B. grounds, the city versus Alberta College. All are invited.

—Hon. Frank Oliver addresses the Young Liberals, this evening in the club rooms. It is desirable that there should be a full attendance of Liberals and sympathizers.

—Negotiations between the C.P.R. and the E. Y. & P. looking to an arrangement whereby the C. P. R. will have switching rights over the E. Y. & P. have been broken off and matters are at a standstill.

—The annual meeting of the Thistle Hockey club will be held in the Imperial Hotel this evening at 8 o'clock. Matters of the utmost importance to the club will come up and a full turnout of the members is requested.

—Supt. Constantine returned on Saturday from Fort St. John. The police party under his command cut a trail eight feet wide from St. John to the Summit, a distance of 160 miles and have gone into winter quarters at St. John.

—Mr. Wilkinson, representing the Canadian Westinghouse Co., Hamilton, Ont., is in the city. It is reported that he is in the city in connection with the installation of an electric pump as an addition to the present power house plant.

—D. McGillivray, who is relieving F. F. Turnbull, manager of the Bank of Commerce, bought a quarter section at the recent sale of school lands. He never attempted to dispose of it, but a buyer came hunting for it and offered him \$3 an acre increase on the quarter.

—Regina Standard-Detective Egan of the Royal North West Mounted Police, had a sad homecoming yesterday. He returned from an 800 mile trip to the wilds of Northern Canada, to find that his wife whom he had married only four months ago, had died a few hours before he reached the city.

—Calgary Herald: Colonel Lessard, who has been up from Toronto looking after remounts, made a shipment of horses east yesterday morning. The shipment consisted of 36 head: 30 are remount horses; 4 polo ponies and two are being sent down by P. Burton to a friend in the east. The colonel left for the east yesterday afternoon.

J. M. Johnston whose team ran away and threw him out on the hill Third street on Friday, and was brought to the police station to sober off contributed \$1 and costs to the civic funds. It was reported that he was on the point of disposing of his team which he had brought in from the United States as a source of income, and should be so he will have further acquaintance with His Majesties officers of the law.

—The C. N. R. steel is reported to be laid eight miles west of Beaver Creek. The bridge at the Fort is being rushed with all possible dispatch and will probably be completed by the end of the first week of November. The ice in the river is hindering the work as the timber can no longer be floated down the river. The bents are being placed in position on the south side of the river and on the north side the approach is being quickly constructed. The bridge will be ready when the steel reaches the Fort.

—Ponoka Herald: H. S. Young, of Edmonton, fishery inspector, was in town the end of the week. He has glowing accounts to give of the river and lakes in this neighborhood, the fish being in abundance. There are several lakes, however, in certain districts where no fish whatever are found. Would it not be a good thing to have a fish hatchery established in North Alberta. Fishing is becoming more recognized as a source of revenue, and many parties are making handsome profits from the same. Something for our new legislators to dream over?

—Rev. P. E. Welsh took Mr. McQueen's pulpit in the Presbyterian church on Sunday morning. Mr. Welsh is the newly appointed superintendent of the British and Foreign Bible Society's work in Canada, also being an author of some note. He is addressing congregations in the principal cities between Quebec and the Pacific coast. Tonight he will address a meeting in the Presbyterian church. Rev. A. Ewing, Chinese missionary at Victoria, B.C., took the services in the evening. He speaks in Strathcona tonight and tomorrow evening will give an illustrated lecture on Bunyan's Pilgrim's Progress, in the school room of the church.

—A Winnipeg despatch to the Calgary Herald says: The Canadian Pacific has decided on an important change in the sleeping car department. The jurisdiction of Superintendent Bell, of this city, is extended from Laggan to Vancouver. Local superintendents will be appointed at Calgary, Moose Jaw, Laggan and Cranbrook, and will have direct charge of the service in their divisions. All supplies for the store and diners will be kept on hand, and laundry operations will be provided and the necessary buildings erected. On

October 29 a new time card will go into effect. The Imperial limited will be operated from Calgary to Montreal till January and may be continued till spring. This makes Calgary one of the most important points on the C. P. R.

BORN

KEELER—On Sunday, October 22nd, Fraser avenue, city, to Mr. and Mrs. Watson Keeler, a son.

DIED

McLEAN—On Saturday, October 21st, the infant daughter of Mr. H. McLean, aged 18 months. Funeral to Strathcona cemetery, Sunday, 2 p.m.

Medley—At the General Hospital on Sunday, October 22, Wm. Medley, aged 28.

BON ACCORD MEETING

A public meeting in the interests of J. R. Boyle the Liberal candidate in Sturgeon was held in Bon Accord School House on Saturday evening about twenty electors being present. Hon. C. W. Cross and J. R. Boyle represented the Liberal interests and Mr. Knight and Mr. Mason the Conservatives. This is the first of Mr. Boyle's meetings that Mr. Knight has availed himself of the invitation to attend.

Mr. Boyle first addressed the meeting and in a clear and lucid speech defined the issues upon which this election is being fought and explained his own stand on these various issues, and read Mr. Knight's address to the electors of Lac La Piche in which he pledged himself to remain neutral on the school question also his appeal to the electors of Horse Hills for his vote and influence on the grounds of his opposition to separate schools and wanted to know with whom Mr. Knight intended to break faith.

Mr. Knight in reply attempted to wriggle out of his two faced program on the ground that his appeal to the Horse Hills electors was in reply to a strong anti-Roman Catholic epistle from that gentleman denouncing the Dominion Government the sentiments of which had so impressed Mr. Knight that he decided to appeal to him for his vote and influence on the ground of opposition to separate schools and to forget for the moment his pledge to the electors of Lac La Piche. He then so far forgot his independence and his neutrality as to attempt to charge the Liberal party with first having introduced the school question into Canada. He did not consider the school question of much importance and sat down without informing the electors what his stand is on the question.

Hon. Mr. Cross followed in a clear and forcible address outlining the policy of the present administration and appealed for the sustaining of that administration by the election of Mr. Boyle on November 9th by a good majority.

Mr. Mason a prominent Conservative then addressed the meeting on behalf of Mr. Knight denouncing the Liberal party and attempting to show that the Conservatives were sound on the Capital question. He did not however succeed in satisfying the audience that if the Rutherford administration were defeated Mr. Bennett would not take the capital to Calgary. The meeting closed with three cheers for the King.

PERSONAL

Geo. Gouin went to Red Deer today.

R. Williamson went to Calgary today.

Rev. T. C. Buchanan went to Calgary yesterday.
